TOWNSHIP OF CENTRE WELLINGTON

CLASS ENVIRONMENTAL ASSESSMENT

DICKSON DRIVE EXTENSION

NOTICE OF VIRTUAL PUBLIC INFORMATION CENTRE

Project Background:
The Township of Centre Wellington owns property east of the existing limit of Dickson Drive in Fergus. In order to facilitate development of these lands, the Township is proposing to extend Dickson Drive, the existing municipal services and establish a Storm Water Management strategy. The proposed works will provide access to municipally serviced (water and sanitary) industrial, commercial, and/or institutional employment lands, and a multi-use path within the Centre Wellington Business Park in Fergus, to allow for continued economic growth and promote a live/work opportunity within the Township.

The Study Process:
The Township initiated a Class Environmental Assessment (Class EA) in order to evaluate alternative road/servicing alignments and Storm Water Management strategies to establish a preferred option. The project is being planned under Schedule B of the Municipal Class Environmental Assessment (October 2000, as amended in 2007, 2011, 2015).

Public Information Centre (PIC) No. 1:
Consultation with the public, key stakeholders, indigenous groups and regulatory agencies is an important component of the Class EA Process. The purpose of this PIC is to solicit feedback and input on the Study, as well as provide an overview of the Study process and discuss the evaluation of alternative solutions and the preliminary preferred alternative. The Virtual Public Open House will provide background and display information materials inviting public response and be open for comments from **Monday, January 17th – January 31st, 2022**. The virtual consultation platform can be accessed online through the Township's website at https://www.connectcw.ca/

How to Respond:
If you have any questions, comments, require further information, and/or would like to be added to the project contact list, please contact both of the following:

Lee Wheildon, C.E.T.,rcca
