RE: TOWNSHIP OF CENTRE WELLINGTON
RECONSTUCTION OF HILL STREET EAST, FERGUS
OUR FILE: M6462D

Dear Resident:

On behalf of the Township of Centre Wellington, we wish to advise you of the reconstruction of Hill Street East between Herrick Street and Gartshore Street in Fergus. Construction will commence the week of April 21st, 2025 and will continue through to October, 2025.

The Contractor for this project is Alfred Fach Excavating Ltd. of Cambridge, Ontario.

Hill Street East will be closed to through traffic during construction. Local access will also be interrupted at various times during this period.

Due to the nature of the construction, the Contractor is required to perform a pre-condition survey on the structures and buildings located within the construction limits. Sub-Contractor (OZA Inspection) may be in contact with you to set up an appointment to inspect your property.

Garbage and Recycling – On your designated waste and recycling pick-up days, please put your bags and recycling boxes at the standard roadside pick-up location by 7 a.m. Construction staff will pick them up and move them to a designated pick-up location as coordinated between the Contractor and County of Wellington Solid Waste Services Division. The Contractor will return your recycling boxes to your property. Please ensure that your recycling boxes have your civic address.

Historically, some properties utilize their existing private side water service to provide grounding for their building's electrical system. With the replacement of existing watermain materials from cast/ductile iron to PVC within the project limits, potential grounding issues may become apparent. If necessary, have a licensed electrician review your existing electrical system and provide alternative grounding options prior to construction.

over…

Should you have any questions or concerns at this time or during the construction, please contact either the Site Inspector, the Township or the Contractor as noted on the attached list.

Thank you in advance for your co-operation and patience on this project.

Yours very truly,

TRITON ENGINEERING SERVICES LIMITED

David G. Donaldson, P. Eng.
